Jelly castle (CC) is a platform game. If you are a beginner in game programming, please follow the tutorial in "Learn to play games" section. Contents Story The story starts as Kanga and Ball became friends because both of them are orphans, and they formed a team to play games. The team's first and only game is to explore a haunted castle. All they can find in the castle are toys, skeletons and ghosts. Then, all of a sudden, Kanga and Ball found a dead tree. It had the keys for the castle. When they were exploring the tree, they were kidnapped by a monkey called Nip. Nip brought them to the castle and told them that they would be their family forever. At the beginning, Nip explained to them that they would have to face the seven worlds (the seven worlds were Nip's home, the entrance to the castle, the castle, the mysterious mansion, the obstacle course, the dark forest, and the bridge). Their first game in the castle was to gather the seven treasures, as Nip told them, they will have a happy ending. After Kanga and Ball found the first treasure, Nip told them that it was not what they were looking for. So they have to find three more treasures to fulfill Nip's wish. Nip also told them that if they fail the seven worlds, they will have to wait the result in the future. During their journey to find the treasures, they meet three demons that want to stop them from reaching the end. Story of the game In the beginning, you don't know anything about Kanga and Ball. All you know is that they were orphans and they had something in common. Soon, you will meet Kanga and Ball. When you meet them, you can choose to keep playing with them (Your choice) or just join the team. So at the beginning, what you need to know is that the story of the game started as you and your friends are playing a game with a haunted castle as the goal. When you are playing the game, you will face three demons along the way. You can join the team (If you choose to do so) or you can continue to play the game. After the three demons, you will be in the castle. This is the world of Nip. In this world, you will find different things, such as dead
