What's new:

: Tyler Trent | Round 6 Clayton Kershaw is such a mainstay with the Los Angeles Dodgers it's hard to imagine the team ever attracting another Hall of Famer. But if star pitchers such as Clayton are as difficult to come by as they appear, a young hurler from Bremerton is as close to Kershaw as we've ever come. Clayton Kershaw is such a mainstay with the Los Angeles Dodgers it's hard to imagine the team ever attracting another Hall of Famer. But if star pitchers such as Clayton are as difficult to come by as they appear, a young hurler from Bremerton is as close to Kershaw as we've ever come. Frankly, by August, the Lastings Milledge signing was beginning to look more like one of Kirk Gibson's game-winning throws than one of the best young players ever to sign with the Dodgers. Today, things look much different. In a 2-1 loss to the Houston Astros, the 19-year-old lefty from Bremerton pitched 7 1/3 scoreless innings, giving up a hit and striking out seven. A throwback to Lincecum and Strasburg, he held left-handed batters to a .077 batting average, the lowest mark in the major leagues. And he held the Astros to one hit with a trio of strikeouts. Trent is an easy seven, and he gets two for free. Pitchers like Trent don't come around that often, and when they do, they stick around a while. He's young enough to go a while, and he might get there someday, but until then, he's our Preeminent Prospect, and appropriately so. 52 + 53 When the Angels signed Ervin Santana, they signed a seventh-starter caliber arm that could moonlight as a number-three guy, and a reliable set-up man. Between Kershaw and Justin Masterson, that's the sum and substance of the Dodgers pitching prospect pipeline. Still, the stretch from Kershaw to Trent isn't that long, and there is a strong argument to be made that besides Kershaw and Kershaw's potential heir apparent, it could also be Trent. Remember, a year ago, it was Eric Stults. A year earlier it was Brett

There are many reviews and player opinions about the first game, Tomb Raider: The Game in Development. It is highly recommended to download this game to help me complete the second project. This project includes the history, development, and future plan of Tomb Raider series. A few notes for the second title: 1. There are no spoilers in this game (so far). This game is still in development. This means everything you see is still a work in progress. There is very little gameplay footage to make up for this. 2. If the game is not available, it does not mean the game is not complete. The game is still in development, so things like delays will happen. If it is available, then the game is complete. 3. Feel free to share your opinions and stories. They can help the project grow and learn what you would like to see from the series. Feel free to share your thoughts and give feedback. Have a good reading and i welcome you at www.tkgames.com Although this is an unofficial Patreon page, it does help to gather funds for the game. The game is still in development, so this is to gather funds for the project at the moment. Why am I making this game I have been working on the Tomb Raider games on and off for more than 11 years. At this

time, there are many games already developed and being released. I hope to give myself a little break, and have the opportunity to make another title. The game's setting, gameplay, and story is something that has not been done before. I hope to make a game that is completely original, and unique, with high quality. Future plan for the games

1. Tomb Raider: The Game In Development v1.1 I will release the first version of this game in the first quarter of 2020. This is a work in progress of the game. The only guaranteed feature will be that the game will be officially developed by Crystal Dynamics. This means there are certain things cannot be added to the game for the publisher. (DLC, Extras, Pack-in's, etc.)
2. The main game will be around 100 hours for a full playthrough.
3. There are at least 4-5 chapters in the main game. Each of these chapters take 30 hours to complete.
4. There are at least 3 bonus chapters, which will take 30 hours to complete.
