The secondary structures of boar semen frozen in Beltsville Thawing Solution (BTS) were investigated by Fourier transform infrared (FT-IR) and circular dichroism (CD) spectroscopy. X and Y-axes

a cargo of merchandise on board. You have been ordered by your employer to deliver those goods to a region of a map. This is a route map where your ship's position shows the region you are required to deliver the goods to and this region is surrounded by water. In the water around the map are some dolphins. Your aim is to deliver the cargo to the destination region as fast as possible, but avoid the area of the map where the dolphins are located. In each stage of the game you will be notified of the presence of a dolphin in the area. The presence of a dolphin in the area will be shown on the ship's screen by the image of a dolphin or the text "Dolphin". When a dolphin tries to touch the cargo, it will be indicated by a flashing ring around the cargo. The cargo is only touched by dolphins and you can press the "A" key to push them off. You are given the option to end the level by pressing the "Z" or "X" key. You need to be quick and push the dolphins off as fast as possible as each dolphin touches the cargo and it is lost for the player's score.
